

January 8, 2021

Greetings,

Testing was conducted today for all resident and staff, unfortunately 3 residents and 4 staff tested positive for COVID during today's testing. The residents who tested positive have been moved to a designated quarantine unit with staff who will be dedicated to the quarantine unit.

Residents will be tested again on Monday using rapid antigen testing and all staff will be tested again on Tuesday using the PCR tests which we mail to a lab.

We are actively working on reviewing our plan and ensuring all processes and procedures in place. Each department has reviewed their responsibilities and staff are committed to providing compassionate and quality care. We are focused on maintaining a positive environment and being available to provide the necessary assistance as we navigate these challenging days.

Please do not hesitate to contact us with questions or concerns, email will be the most effective form of communication.

Thank you,

*Jeffrey Lacroix*
