December 9, 2021

Families, friends, residents and staff,

The country transmission rate continues to be at a high level requiring us to maintain COVID testing twice a week with this week's test results retuning as negative.

Our resident visits are going well and we are appreciative of everyone's efforts in following the required guidelines. Please remember we require a temperature between 97° and no greater than 99.4° for entry. As the temperatures continue to draw outside temperatures continue to drop visitors may have to wear a mask and wait for their temperature to reach the required range for entry. Also, please remember:

Please do not visit if you have ANY cold or flu symptoms or experiencing any other illness. Also, a mask must be worn that covers the nose and mouth while walking throughout the building, not associating with other residents or staff during the visit, maintain social distancing from other individuals and not visiting if an encounter with a potentially positive or COVID positive individual within the last 14 days or if any new onset of illness exists.

The door code is due to be changed and this will occur on Tuesday, December 14. To minimize the time waiting outside we encourage visitors to call 10 minutes prior to arriving for visits occurring during non-business hours.

It is exciting to watch the doors throughout the building transition to Christmas theme, generating a festive energy. Keep up the great work!

Have a nice weekend,

Jeffrey Lacroix NHA, MLA, FACHCA
