We provide this update to inform you we conduct surveillance testing today and we did not have any COVID positive results! Unfortunately, we did have cases yesterday with cases continuing to be isolated to second floor and no further cases on 1<sup>st</sup> floor.

We strongly encourage each person to refrain from visiting if you have had an exposure with a person positive with COVID. Although individuals are fairing well with the illness, some experience long-term effects and the mandatory requirements from the federal government creates a psychosocial hardship for each resident who tests positive for COVID. Together, we can collaborate to keep the resident's well-being a focus.

As mentioned last week, we would like to remind residents and their families of our annual Halloween gathering. We encourage each interested resident to participate, we have a little over a month to go so please start thinking of your costumes!

Please do not hesitate to contact us with questions or concerns.

Kindly,
